THE WAY YOU LIVE INSPIRES US TO CREATE

DESIGNED TO MAKE IT BEAUTIFUL

- ✓ Herringbone sizes
- ✓ 20 year warranty

Herringbone patterns are hot. If you're looking for a refined parquet look, it's your lucky day. With Parquetry, Moduleo® adds a contemporary herringbone offer to its design floor collection. Discover a selection of successful Moduleo® designs: 16 trendy colours. Only available for dryback installation.

SHORT PLANK
63,2 cm x 15,8 cm
2.5 mm thick

TRUE-TO-NATURE DESIGN

The wood and stone designs of the Moduleo® parquetry collection are all inspired by nature and entirely designed, developed and printed in-house. Every design has pin-sharp details, making sure your floor looks as unique as nature.

The collection ranges from pure and more pronounced woods to elegant and more distinctive stones. One by one beautifully designed, so you'll definitely find a floor that fits your expectations and interior.

SOFT & WARM FEEL

Without knowing it, your feeling of wellbeing increases when walking over a Moduleo® Design Floor. The resilient layer anticipates your body weight, offering you that soft feel underfoot. And what's more, it feels naturally warm too. Because a Moduleo® Design Floor has great insulating qualities, its temperature remains comfortable in every season.

FULLY WATERPROOF

Vinyl repels water, making a Moduleo® floor the perfect solution for kitchens and bathrooms – and for every space at home for that matter. Water balloon fight inside? No problem. The floor is water resistant and easy to maintain.

Did you know Moduleo® Design Floors are one of the most durable flooring solutions available? The in-line calendered lamination of the different layers prevents the floor from delaminating due to moisture, so you'll enjoy the floor for years.

SILENT ACOUSTICS

One of the main benefits of a Moduleo® Design Floor is its acoustic comfort. Vinyl is resilient, so it reduces reflective walking sound and transmission sound to a very comfortable level. That's a valuable asset for both you and your neighbours below. If you want to avoid any annoying noises inside, Moduleo® simply offers you the ultimate flooring solution.

Do you want to please your neighbours even more? Use a Moduleo® underlay for even better transmission sound reduction.
